

ANURAG PRADHAN

📍 Balasore, Odisha — 📞 8260689967 — ✉ prdhananurag2005@gmail.com — 🔗 LinkedIn — 🐙 GitHub

Professional Summary

Full-stack developer experienced in building scalable web applications using React, Angular, Spring Boot, and FastAPI. Skilled in REST APIs, JWT authentication, database design, and backend development.

Experience

Full Stack Developer Internship — AayraTexhX July 2025 – September 2025

- Developed a full-stack transport management system application using Angular, Spring Boot, and PostgreSQL for logistics tracking and driver management workflows
- Collaborated with the engineering team on designing database schemas, REST API endpoints, and feature implementation aligned with business requirements
- Contributed to frontend and backend feature development while participating in code reviews and debugging.

Full Stack Development Training — Silicon University June 2, 2025 – July 10, 2025

- Completed the Summer Internship Course in Spring Boot (Java) and Angular Full Stack Industrial Development Training.
- Built SmartBiz business management system with role-based dashboards and CRUD operations based on employee data

Co-Founder — Tikli (Mental Wellness Startup) Jan 2025 – Sept 2025

- Co-founded Tikli (tikliapp.com), a mental wellness startup focused on psychology-based user engagement.
- Designed “Tikli Challenge” psychology-based interactive series and “Know Yourself” personality assessment

Education

B.Tech in Electrical and Electronics Engineering
Silicon University, Bhubaneswar 2023–2027 (Expected)
CGPA: 8.67

Projects

Bloomify GitHub

React, Firebase Firestore, Framer Motion

- Built an interactive bouquet customization application using React and Firebase Firestore.
- Engineered responsive UI with animations using React hooks and Framer Motion
- Live: bloomify-ashen.vercel.app

Transport Management System Frontend / Backend

Angular, Spring Boot, PostgreSQL

- Developed a logistics management system for driver, vehicle, and consignment tracking.
- Designed relational database schemas optimized for complex logistics data
- Developed RESTful APIs for seamless backend-frontend integration

Patient Visit History API GitHub

Python, FastAPI, SQLite, JWT Authentication

- Developed secure REST APIs using FastAPI with JWT authentication and role-based access control
- Implemented CRUD operations, patient visit search, and dynamic filtering with SQLite
- Built a modular backend architecture with request validation and centralized exception handling
- Documented and tested APIs using Swagger/OpenAPI and Postman

Technical Skills

Languages: Java, Python, JavaScript, TypeScript
Frontend: React, Angular, HTML5, CSS3
Backend: Spring Boot, FastAPI, Node.js, Express.js
Databases: PostgreSQL, MySQL, MongoDB, SQLite, Firebase Firestore
Tools: Git, GitHub, Postman, Swagger/OpenAPI, Netlify, Render
Concepts: REST APIs, CRUD, JWT Authentication, RBAC, OOP, API Documentation, Deployment
